**Innovation and Creativity
for all Tastes and Styles!**

**Classical - Flamenco - Kinder Strings
Nailkit - Bridge Micro - etc.**

"COATED"

www.rcstrings.com

THE VOICE OF YOUR GUITAR

“**RC Strings**” has been manufacturing strings for guitar and related instruments in Valencia for more than 45 years. Its main objective, as “**The Voice of Your Guitar**”, is for RC Strings to be an indispensable ally to transmit your musical sensitivity.

For more than 25 years the words “**Anti-Oxidant**”, “**Anti-Corrosion**”, and more recently, “**COATED**”, have been part of our daily vocabulary. **RC Strings** is a pioneer in the use of these treatments offering **more life to your strings with more sound, projection and timbre**. All RC Strings are “**COATED**”, from the least expensive set to the most expensive without distinction.

RC Strings are made “**for professionals, by professionals**”. They are available at a reasonable price and are made with the best materials, so you can enjoy your guitar and your music.

In addition, our contribution of offering “**COATED**” strings throughout the range has always been successful with numerous guitar manufacturers and artisans who rely on strings that embellish their guitars that are true “works of art”.

To all the aforementioned advantages we add “**Stable Tuning**”, a characteristic recognized by great concert performers and verified in statements made by them.

Our greatest challenge is that everyone plays relaxed with an aesthetic and total response.

Thinking of guitarists we offer more durability and more life to your music and your expression. For this reason, RC Strings has created a great variety of combinations that provide a wide range of timbres and tensions for all styles and tastes.

Your strings, like your guitar, are very personal. We encourage all guitarists to try our wide assortment of references made in response to numerous comments and preferences from concert players around the world. We especially appreciate the collaboration of our “**RC Strings Artists**”.

RC Strings also manufactures strings for bandurria, laúd, ukulele, and a wide range of related instruments.

With **RC Strings** you can feel *free to enjoy your musical performance*.

“Sonata” SERIES

The “Sonata” Series represents an important contribution to the guitarist and the world of the guitar. This series, which consists of four tensions, offers a broad sound with great power and projection. Each tension is coupled to the needs of the guitarist thus optimizing their comfort and volume.

Quinteto 1909

"RC Strings has proven to be an excellent ally of performers who pursue innovation and constant improvement

of their sound. The special strings designed for the **1909 Quintet** provide us with the tuning stability we were looking for and are unrivaled in terms of comfort, feeling and warmth".

The **Guitalele** is an increasingly popular instrument due to its size and easy transportation. For this reason it is sometimes known as a "**Travel Guitar**".

Taking into account its characteristics, **RC Strings** offers a special set for the Guitalele that optimizes its sound quality while taking care of the comfort of playing. **RC Strings** always provides creative solutions to satisfy the most demanding musical needs.

THE VOICE OF YOUR GUITAR

"The Flamenco Guitar" by **Juan Grecos** is a pioneer method in flamenco guitar instruction

It is written in music and tablature and shows many techniques and "false-tas" that have been transmitted from guitarist to guitarist.

The explanations of rhythms and styles in the lessons help you feel the "duende" and magic of the flamenco guitar.

Accessories • PICKUPS

BRIDGE MICROS

AMB5C

For guitar

AMB6V

For guitar
with volume
control

AMB10C

For tiple
& ukulele

Like the AMB5C but with the size required to be used in an ukulele.

It reproduces the natural sound of the strings, without installation or damage to the instrument. It is equipped with a cable for ampli or sound mixer. Its wood color integrates it perfectly in the aesthetics of the instrument.

RC Strings exclusive product.

CONTACT MICRO

AMM3

Contact Micro

AMM4

Contact Micro 'V'

With volume control

Excellent results at very reasonable prices. By not having to make holes for their placement, they do not damage the guitar, and the result can be optimized by looking for the ideal place for their placement: on the top, bridge, back, etc.

The cable can be unplugged so that you can leave the pickup on the guitar.

STAND

SSP20

Kompakt II stand

Everyday guitars are repaired because they have been left in unsafe places in which the instrument runs the risk of falling or being hit. RC Kompakt Stand II will give you more peace of mind with a Robust, Safe and Compact stand for your guitar. It comes with an attractive woven bag for more comfort.

DY100 Dynarette (Small)

*Provides a more comfortable sitting position
Improved projection of the guitar.*

Doctors and Physiotherapists strongly recommended the use of guitar rests because of its ergonomical advantages.

DY200 Dynarette (Large)

GPS30 Guitar protection sleeve

It is made of a light, elastic, material that fits any arm comfortably. It offers maximum protection of your guitar without disturbance.

NSC25 Non-slip cloth

So that the instrument does not slip while you are playing.

25 x 50 cm

FEEDBACK CONTROL

SHC09
For nylon guitar
8,5 - 9 cm Ø

Prevents feedback from your guitar when amplified

SHC11
For acoustic guitar
10 - 11 cm Ø

ADT60 Dynamic Tensor

It helps you strengthen your fingers in a gradual way, without exaggerated efforts that can hurt you.
